

The Packard shoe for men!

The Packard has not been cheapened to meet increased cost of material. It would be poor economy to sacrifice the reputation we have attained for the amount involved, large though it may be. Honesty in construction is an integral part of the Packard Shoe, and will be so long as we make it.

Sold at \$3.50 **\$4.00** \$5.00 in all Styles

Substitutes.
"We haven't any deviled crabs, sir," said the waiter. "I can offer you some very nice deviled eggs."
"Umph! I presume if you were out of mock turtle soup you'd suggest some very nice mock oranges?" retorted the diner.
"Yes, sir," answered the waiter calmly. "At least I would suggest that you give them a mock trial."—Harper's Weekly.

Britain's Debt to France.
One of the chief debts to France is that she nourishes our ideas, transforms them, makes them her own, just as she transplanted and transmuted the flower of the renaissance in an earlier day. With all our national vanity we never dispute the parentage. It is only territory and diplomatic prestige and commerce about which we quarrel with our "sweet enemy."—London Academy.

EXPOSITION IN CRESCENT CITY IN 1915

Big Plans Being Made For
Celebration of Canal
Completion Then.

PROGRESSIVE UNION AND THE
COMMITTEE ON PRELIMINARY
WORK ARE ENCOURAGED VERY
GREATLY BY THE EXTENT OF
INTEREST MANIFESTED.

By Walter Parker.
New Orleans, June 8.—Advises just received by Secretary Trezevant from the Panama Canal zone and from other sections of Central and South America, evidence a degree of interest in the proposed World's Panama Exposition to be held in New Orleans in 1915 in celebration of the completion of the canal, hardly second to that being shown by the people of those states lying between the two great mountain ranges in the United States.

A sub-committee, composed of bankers and men of wealth, and selected from the exposition committee of twenty-five have reported after careful investigation, the project to be entirely feasible, practicable and advisable, and immediately thereafter the parent committee began arrangements for permanent organization.

The plan in detail will not be decided upon until after the World's Panama Canal Exposition Conference of delegates from all sections of the country, which is to be held in New Orleans on June 27, 28 and 29, the call for which is now being made by the New Orleans Progressive Union and the Merchants' Association, acting jointly in behalf of the Exposition Committee.

Since the completion of the canal will exert a far reaching influence on the world's commerce, and the deepening and improvement of the internal waterways of the United States will open up many new opportunities to millions of people in this country who are not now in close enough touch with the seaboard to engage in direct export business, the exposition committee fully recognizes the necessity for the conference that has been called in order to have the exposition conform to general senti-

ment, rather than to that of any particular locality in formulating its working plans.

The burden of the financial responsibility will fall upon New Orleans, but Chicago, Kansas City, Pittsburgh, St. Louis, and, in fact, all of the cities, towns and states in the southern valley and in the great western sections, are so vitally and directly interested in the first fruits of the improvements the government has undertaken that no preconceived idea can well overrate the interested part they will take in celebrating such an event.

Thus far, without a single exception, comment in all sections of the country has been favorable to the enterprise, all of which leads the committee to anticipate a large and representative gathering of delegates in New Orleans the last of the month. The railroads having granted a reduced rate for the round trip, which may be taken advantage of by all who may desire to attend the conference whether as an individual or as an appointed delegate.

The Inland Waterways Commission recently appointed by President

Roosevelt has been instructed to report some plan for transportation purposes. The advantage may be taken of the waterways in the country, particularly those of the Mississippi valley, and southern states, where freight congestion is serious and export markets are most needed. The committee's investigations along these lines are, therefore, broad. I am convinced that, all other considerations aside, the publicity that will be given the World's Panama Canal Exposition, which will also celebrate waterways improvement within the United States will greatly assist the efforts of all organizations and individuals who are now or who may work for larger rivers and harbors appropriations.

THERE ARE FEW

people who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. V. C. Simpkins, Alba, Texas, writes: "I have used Herbine for Chills and Fever and find it the best medicine I ever used. I would not be without it. It is as good for children as it is for grownup people, and I recommend it. It is fine for La Grippe." Sold By W. A. D'Alemberte, druggist and apothecary, 121 South Palafox.

A Curiosity of Arithmetic.
A mathematician in a scientific bureau of one of the departments at Washington has discovered that the number 142,857 is odd in more senses than one.

If we multiply it by any number from 1 up to 6, we arrive at products expressed by exactly the same figures as the original. Not only so, but, with the exception that a different figure leads off each time, the order of the figures is the same.

142,857 multiplied by 1 is the same.
142,857 multiplied by 2 is 285,714.
142,857 multiplied by 3 is 428,571.
142,857 multiplied by 4 is 571,428.
142,857 multiplied by 5 is 714,285.
142,857 multiplied by 6 is 857,142.
With this multiplying by 6 the strangeness stops, though the result of multiplying the number by 7 gives the rather odd number of 999,999.—New York Herald.

A Dangerous Deadlock
that sometimes terminates fatally, is the stoppage of liver and bowel functions. To quickly end this condition without disagreeable sensations, Dr. King's New Life Pills should always be your remedy. Guaranteed absolutely satisfactory in every case or money back at all druggists. 25c.

The most unique method of delivering mail is that employed by steamers passing the islands of the Tonga group, in the Pacific. On account of many reefs landing is extremely dangerous, and the few letters to be delivered are attached to large skyrockets, which are fired and reach the shore in safety.

JUST see if you don't find the new Kirschbaum suits the most pleasing clothes you ever tried on.

That's the way they impress nearly every man who tries them.

In cloth and in cut, they represent the right clothes idea. "Money back" say the makers if they fail in any respect to satisfy.

Look for the Kirschbaum label. Prices \$15 to \$25.
